

SINCE 1957 WE PROFILE IDEAS

EXTRUSION AND WORKING OF PLASTIC MATERIALS
ESTRUSIONE E LAVORAZIONE MATERIE PLASTICHE

MULTI-USE PROFILES

PROFILI MULTIUSO

The semi-manufactured plastic products belong to generic and commercial category of profiles, that are used to different application. These artifacts may be subject to special working upon request, as bevel cut, drilling, milling or shearing. All VBN profiles are in compliance with the International rule DIN 16941 "Thermoplastics extruded profiles".

I seguenti semilavorati termoplastici prodotti possono essere impiegati in differenti e numerosi campi di applicazione. Questi manufatti possono essere completati con lavorazioni speciali su richiesta quali tagli inclinati, forature, fresature o tranciate. Tutti i profili VBN sono conformi alla normativa internazionale DIN 16941 "Thermoplastics extruded profiles".
